

New School Pertussis Shot Requirement!

Starting July 2011, a new law ([AB 354](#)) changing California immunization requirements for all students entering 7th-12th grades goes into effect. This law requires that this coming school year (2011-2012), **all students entering into 7th, 8th, 9th, 10th, 11th and 12th grades** will need proof of an adolescent whooping cough booster shot (called “Tdap”) **before** starting school.
